NFC TAP GUIDE

Where to tap the card on your phone

No app needed. Hold the card still for 1–2 seconds. No NFC? Scan the QR code with the camera.

iPhone

Top edge, near the camera

Samsung · Motorola

Middle of the back

Pixel · OnePlus · Xiaomi · Vivo · Oppo · Realme

Upper back, below the cameras

PHONE	TAP SPOT	TURN NFC ON
iPhone	Top edge of the phone, near the camera	Nothing on iPhone XS / XR and newer
Samsung Galaxy	Middle of the back, just below the cameras	Swipe down from the top and turn on NFC in Quick Settings.
OnePlus	Upper back, just below the cameras	Swipe down and turn on NFC in Quick Settings.
Google Pixel	Upper middle of the back, just below the camera bar	Settings › Connected devices › Connection preferences › NFC › On.
Xiaomi · Redmi · POCO	Top of the back, near the cameras	Settings › Connection & sharing › NFC › On.
Vivo · iQOO	Upper back, near the cameras	Settings › Other networks & connections › NFC › On.
Oppo · Realme	Upper back, near the cameras	Swipe down and turn on NFC in Quick Settings.
Motorola	Middle of the back, around the Motorola logo	Settings › Connected devices › Connection preferences › NFC › On.
Nothing	Upper middle of the back	Swipe down and turn on NFC in Quick Settings.

Not working? Unlock the phone · turn NFC on (Android) · take the phone out of thick or magnetic cases · slide slowly over the card · close the Camera app (iPhone). Some budget phones have no NFC: scan the QR code on the card instead.
